Education and Qualification

Indian Institute of Information Technology Kalyani

Bachelor of Technology in Electronics and Communications Engineering

Kalyani, India

2022 – Present

- CGPA: **9.19/10.0** – Ranked **2nd** in class

Kalna Ambika Mahismardini High School (H.S)

Higher Secondary Education, WBCHSE

Kalna, India

2022

- Scored **90%** in HS Boards, WBCHSE

Kalna Ambika Mahismardini High School (H.S)

Secondary Education, WBBSE

Kalna, India

2020

- Scored **96.3%** in Madhyamik Boards, WBBSE – Among **Top 20 Ranked** in West Bengal

Summary

Detail-oriented **Full-Stack Developer** and **Machine Learning Enthusiast** with expertise in **MERN** and **PERN** stacks, as well as **NextJS**. Proven ability to design and deploy scalable web applications while integrating **backend APIs** and improving UI/UX using **Tailwind CSS** and **ShadCN UI**. Strong foundation in data pipelines and **machine learning model development**, particularly with **TensorFlow**, **RandomForest**, and **KNN**. Adept at hardware integration through **Arduino** and **MATLAB**, complemented by experience in **Git** for **version control**.

Experience

OneVarsity Edtech Private Limited

Backend Developer Intern

Remote, India

July 2025 – September 2025

- Developed and tested **52 backend APIs** across 10 endpoints
- Optimized database performance using Mongoose and JWT-based authentication to reduce redundant queries
- Ensured **zero unresolved bugs** by the final QA testing phase
- Created custom backend utilities like ErrorHandler, fetchTokenDetails, Logout, and Validators to enhance stability and reusability
- Maintained modular, well-structured code following best practices

Technical Skills

- Web Development:** Full Stack (MERN, PERN, NextJS 15), Token-Based Authentication (JWT, OAuth), Session Management (NextAuth/Auth.js)
- Machine Learning:** TensorFlow, Scikit-learn, RandomForest, KNN, Deep Learning, Data Science
- Programming:** JavaScript, Python, Assembly Language, Arduino Programming, MATLAB
- Tools & Technologies:** Git, GitHub, Cadence Virtuoso, Data Structures & Algorithms
- Other Skills:** Problem-Solving, Collaborative Team Work, UI/UX with Tailwind CSS and ShadCN UI

Projects and Works

- **Social Media Platform:** Developed complex backend systems and deployed dynamic websites with secure authentication using NextAuth (AuthJS), sessions, JWT tokens, and OAuth
- **Smart Door Lock System:** Built an IoT-based access control system using Arduino, NFC tags, LCD display, buzzer, and servomotor for secure authentication
- **Fake News Detection:** Created a machine learning model using Scikit-learn, RandomForestClassifier, and TF-IDF vectorization to identify fake news articles
- **Payment Gateway Integration:** Integrated Razorpay payment gateway into a website for seamless and secure online transactions

Certifications

- **The Complete Full-Stack Web Development Bootcamp** by Dr. Angela Yu (Udemy)
- **The Complete A.I. & Machine Learning, Data Science Bootcamp** by Andrei Neagoie and Daniel Bourke (Udemy)
- **50 Days of DSA JavaScript Data Structures Algorithms LEETCODE** by Jackson Kailath (Udemy)

Languages

- **Bengali:** Native, **Hindi:** Proficient (C2), **English:** Proficient (C2)
