EDUCATION

Indian Institute of Information Technology, Kalyani

2022–2026

B.Tech - Computer Science and Engineering - **CGPA - 8.56 (Till 6th Semester)** Kalyani, West Bengal

COURSEWORK/SKILLS

- C++ (DSA)
- Database Management
- Computer Network
- Operating Systems
- OOPS Concepts

EXPERIENCE

PaediPrime – AI-Powered Pediatric Health Platform 

June 2024

Backend Developer

- Worked in a 7-member startup team to build an AI-driven platform that automates pediatric care and streamlines consultations.
- Implemented secure media uploads with **Cloudinary** and **Multer** for efficient file handling.
- Integrated **JWT authentication** with encrypted tokens and middleware-based session validation.
- Presented the idea at multiple tech showcases, attracting strong investor interest.
- **Technologies Used:** React, Node.js, Express.js, MongoDB, Cloudinary, Multer, Git, Render, Vercel, BotPress.

PROJECTS

1. EatFit | MERN stack (Github Repo)(Website link)

June 2024

- Built a food delivery website inspired by Zomato and Swiggy.
- Implemented features like personalized cart, seamless checkout, real-time order tracking, and distance calculation from current location to hotel.
- **Technologies Used:** React, Node.js, Express.js, MongoDB, HTML, CSS, JS, Bootstrap, Map API.

2.ChatApp | MERN stack (Github Repo)(Website link)

July 2024

- Built a real-time messaging app using Socket.io.
- Implemented one-on-one and group chats with user and role management.
- Ensured smooth real-time communication for better user experience.
- **Technologies Used:** React, Node.js, Express.js, MongoDB, Vercel, Cloudinary.

3.Emergency Vehicle Detection | (Github Repo)(Website link)

Jan 2025

- Developed a real-time system to detect emergency vehicles using YOLOv5 and deployed it on Streamlit.
- Integrated automated SMS alerts and maintained event logs in PostgreSQL.
- Improved model performance through YOLOv5 optimization and batch frame processing.
- **Technologies Used:** Python, YOLOv5, ONNX, Streamlit WebApp, PostgreSQL, Twilio, CSS.

TECHNICAL SKILLS

Programming Languages: C/C++ , Python , JavaScript , Java (Familiar).

Full Stack Web Development (MERN Stack): Frontend: HTML , CSS (Tailwind, Bootstrap), JavaScript , React. **Backend & Database:** Node.js , Express.js , MongoDB , SQL.

Tools & Platforms: Git , GitHub , Render , Vercel , Netlify , Postman.

ACHIEVEMENTS and EXTRACURRICULAR

- Earned **Certificates of Completion** for: **Graph Theory Programming Camp** by AlgoUniversity,solved **17 advanced graph problems** and secured **3rd rank in college**; and the **HP LIFE Data Science and Analytics** online course. [Graph Theory Certificate] [HP LIFE Certificate]
- Volunteered at **East India's Largest Hackathon "Status Code 1"**, managing logistics for **2,000+ participants** and ensuring smooth event execution.
- Coding: Solved **600+ LeetCode** questions with a contest rating of **1740**.
- Achieved a **bronze medal** in the 400m race at the college athletics tournament, showcasing discipline and perseverance.
